

NOTICE

TABLE ROCK LAKE BUOY MORATORIUM

Beginning January 1, 2013, the Missouri State Highway Patrol will suspend acceptance of buoy applications and/or modifications for Table Rock Lake. The Corps of Engineers, Little Rock District, has placed a moratorium on Shoreline Use Permits as it reviews and revises its "Master Plan", and it anticipates this review will take up to one year. Therefore, the Missouri State Highway Patrol will not accept buoy applications or modifications through December 31, 2013.

The Missouri State Highway Patrol will continue to monitor existing buoy permits for proper placement and maintenance throughout the moratorium period. If you have further questions you may contact the Buoy Coordinator at (573) 751-5071; or to discuss the moratorium, please contact the Corps of Engineers at (417) 334-4101.
